

Qiip Safe | Orchestrate

Coordinated Response. Connected Teams. Verified Outcomes.

Orchestrate turns safety policies into live playbooks that coordinate people and systems during drills and real incidents. It standardizes lockdowns, notifications, and reunification – bringing every role, task, and system together in one command view.

Why Orchestrate Matters

- ✓ Unified response across roles and campuses
- ✓ Faster decision-to-action with verified communication loops
- ✓ Complete audit trail for after-action reviews and compliance

Core Capabilities

- **Playbooks** – Configurable playbooks for lockdowns, evacuations, medical events, and more – with role-based tasks and timed response tracking.
- **Lockdown & Status** – One-click lockdown with real-time room status updates via tablets or web; supports smart lock integration.
- **Notifications & Comms** – Role-aware alerts to administrators, SROs, and facilities via email, SMS, or PA adapters. Optional PSAP/911 connectivity for incident hand-offs.
- **Reunification** – Digital check-in/out with student-guardian validation, printable QR badges, and site logs.
- **Evidence & Timeline** – Automatically captures all actions, notes, and communications for after-action and Prove integration.

Designed for Your Team

- Principals, Safety Directors – Launch playbooks, oversee status, and manage response flow.
- SROs, Security, Facilities – Execute field tasks and update on-the-ground conditions.
- Teachers & Staff – Report room safety, follow checklists, and initiate local playbooks when needed.
- Dispatch / PSAP – Receive structured incident cards and provide acknowledgment where supported.

Proof & KPIs

- Decision-to-Action time per incident type
- Room status response rate within 2 minutes
- Notification delivery & acknowledgment rate
- Reunification throughput and exception tracking

Optional Add-Ons

- PSAP / 911 Integration
- Smart Lock & Access Systems
- In-Classroom Tablets
